

VERY COOL WOMEN

MINI COLOURING BOOK
BY ANDREA HOGUE REYNOLDS

INTERNATIONAL
WOMEN'S
DAY 2021

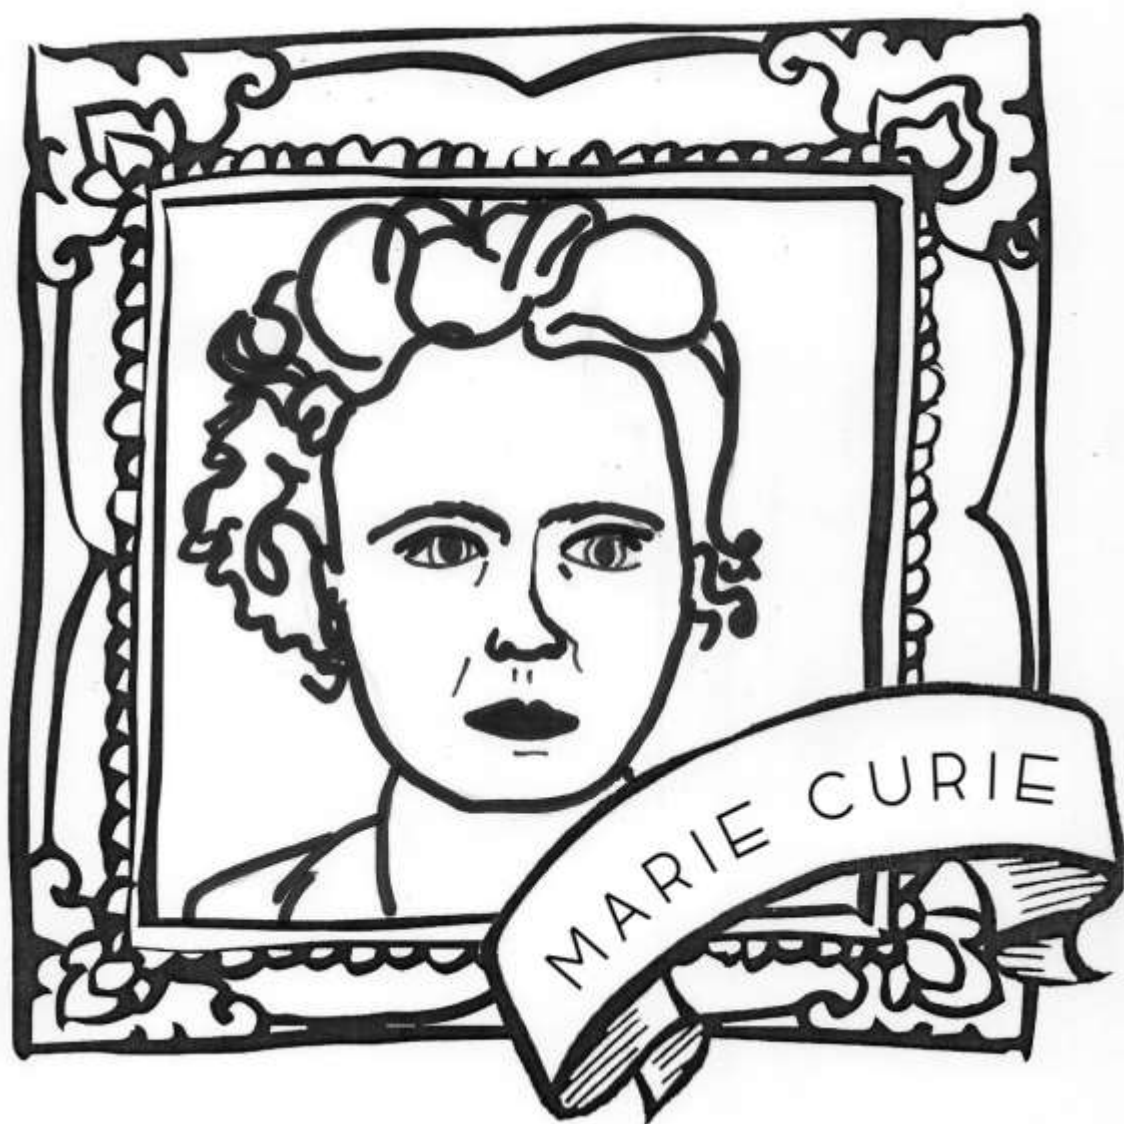

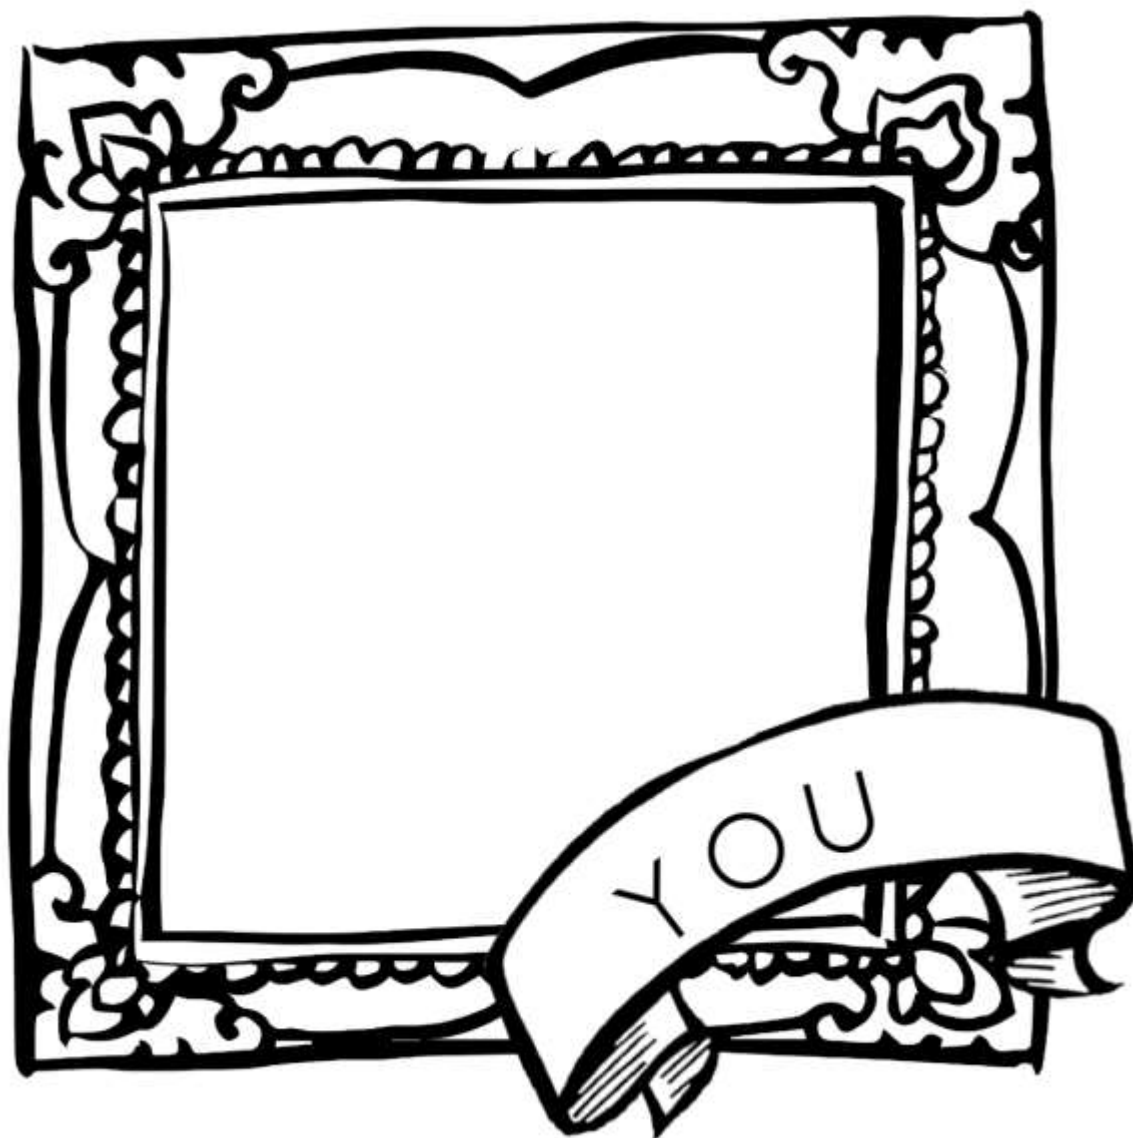

Some women you know - some you don't - all doing very cool things.

For International Women's Day 2021, I crowdsourced names of women and folks either from Canadian history or current pandemic chaos, doing cool stuff. I was excited to learn more about these folks, and think you might too. Toss in a little self-care element, and you can print and colour to your hearts content.

Please know that these images are free for personal use, but should you be inclined, support for organizations and collectives doing good work for women and gender diverse folks is always needed.
